East Street Coventry CV1 5LS

Tel: 02476226810

Headteacher: Eileen Hedley

## Early Years Home Learning at Southfields Primary

Home Learning for schools is changing and we at Southfields have been working hard to set everything up for our children to continue with their learning online. In these times of Covid-19 we must be prepared for all eventualities and the possibility that schools may be partially closed at some time. It is therefore a high priority that the children's learning continues at home and is of high quality. Our online learning will relate directly to what we are studying at school.

At Southfields Primary, we provide various online resources to support all aspects of learning, which children and families can use free of cost at home! This guide has been created to ensure all children can access any home learning sent home from Southfields Primary School and in the event of children having to isolate at home, the guide will allow them to continue learning online. **There is an expectation that parents will ensure that their child is completing their allocated learning in the time frame given by teachers.**

We use **Mini Mash in Reception** to set Home learning. Teachers set this on a **weekly** basis based on the current learning in school and all pupils have been trained to use Mini Mash/Purple Mash. To access Mini Mash, click on the Mini Mash button on the bottom of the website. All pupils at school have **login details** in their **Home Reading Journals**. These Login details can also be emailed to you by contacting: [enquiries@southfields.coventry.sch.uk](mailto:enquiries@southfields.coventry.sch.uk) when requested.

Southfields VLE

We also have our own **VLE** (Virtual Learning Environment). On our VLE we provide lots of extra resources to help with Home learning. The Class pages contain all our home access resources and provide lots of external links, activities, and media for the children to use. **Login details can be found at the back of their Home Reading Journals.**

# List of online resources available on our [VLE](#)

- All of Education City's educational resources are correlated to curriculum objectives and so, we at Southfields Primary use Education City to support learning and exploration of the curriculum at school and at home. Each pupil has their own personal login which they can use to access Education City at any time!

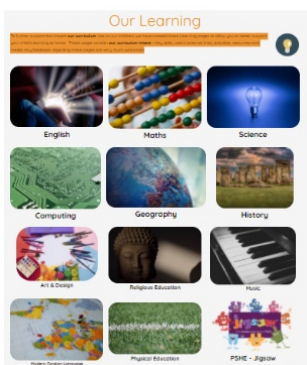

- **NumBots** is all about every child achieving the "triple win" of understanding, recall and fluency in mental addition and subtraction, so that they move from counting to calculating. Suitable from Year 1 upwards. Younger players will be able to access the early stages from a mathematical point of view but will find it increasingly harder to reach the level of fluency required to make progress.

- **Espresso Education** is an award-winning, curriculum-centred primary resource. Suitable for whole school from Foundation to Year 6. **Login details for Espresso can be found on the VLE underneath the link.**

- **Oxford Owl** provides educational resources and free eBooks to support children's learning at primary school and at home. **Login details for Oxford Owl can be found on the VLE underneath the link.**

You will also find Learning pages which contain **our curriculum Intent** – Key skills, useful external links, activities, resources and media. Click on these for further learning.
